

**COLOR OPTIONS**

## Color your world with Simkar

**Simkar is pleased to offer color solutions that will set the look and feel of your project apart.**

Whether fluorescent or HID, the paintable fixtures you specify can easily be ordered in a wide range of colors.

For the needs of matching your fixtures to specific colors, existing site colors, or other fixtures, custom color orders are always welcomed. In addition, a very wide range of colors, including metallics, is always available and at your fingertips.

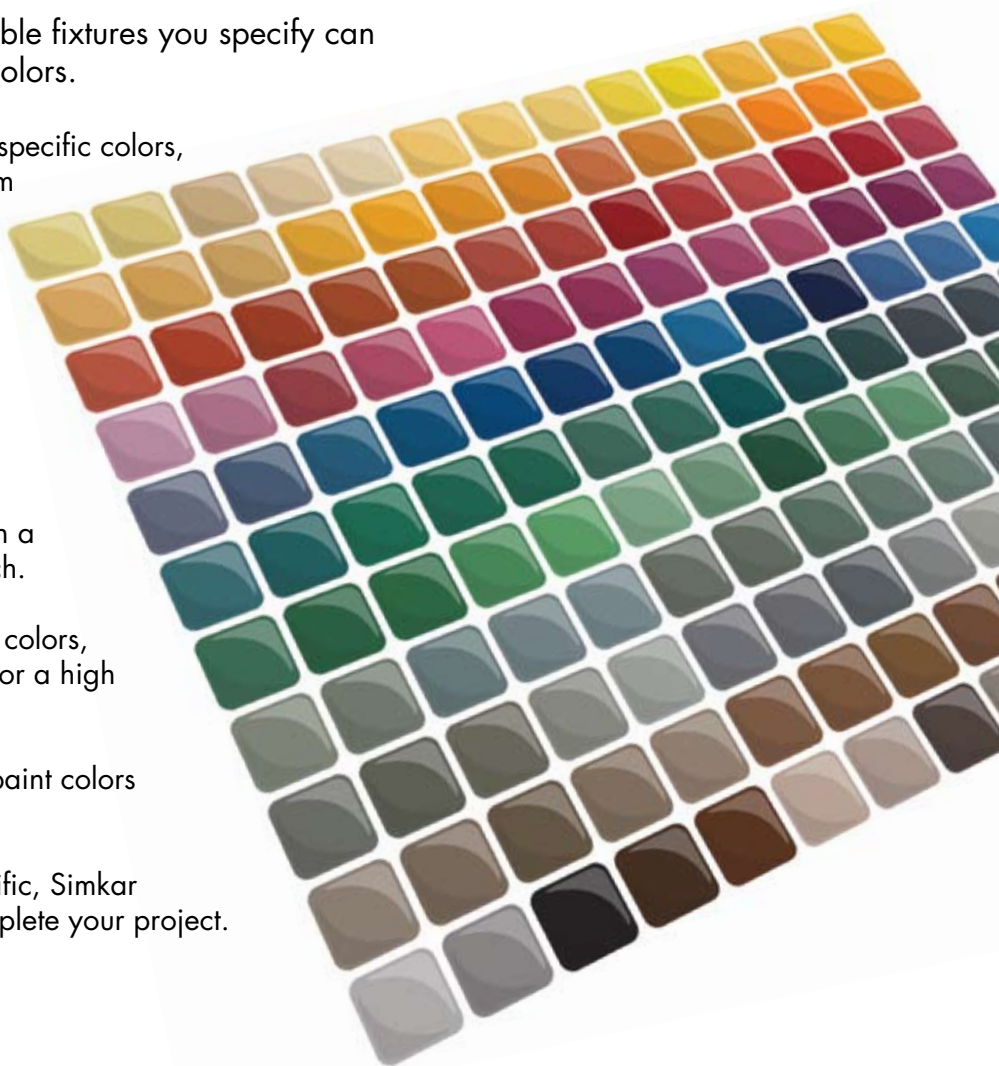

### **Specifying colors is easy**

To match a specific color of your choice, simply provide the color description in an industry-standard format or provide us with a sample of the color you would like to match.

To choose from a wide range of available colors, simply choose the number from our chart for a high quality finish.

We also offer seven high-quality, in-stock paint colors that are readily available.

Whether industry-standard or project-specific, Simkar provides high quality color finishes to complete your project.

*Seven in-stock paint colors are readily available*
