

# LOW PROFILE STANDARD AND SIDE MOUNT STRIPS

## LP5 / LS5

### LP5 and LS5

Introducing the new LP5 and LS5 series, a revolutionary low profile line of single lamp T5 open strips. The LP5 is an open strip with a distinctly low profile (7/8") and even with lamp is a mere 1 5/8" high. The width is a slim 1 1/4" making the LP5 the thinnest and lowest profile strip on the market. Perfect for accent and task lighting. Both also include exclusive tabbed lamp holders for ease of changing lamps and assurance that the lamp is properly seated in the socket.

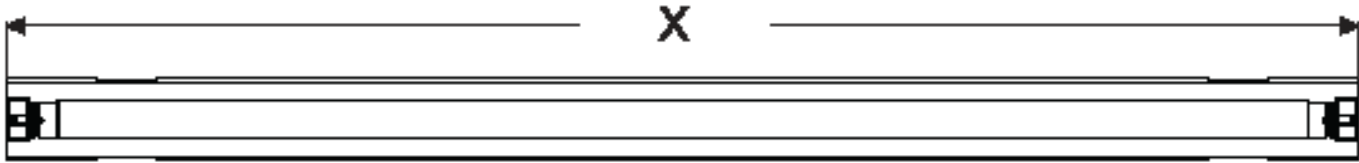

### LP5 Low Profile Ordering Information

Series	# Lamps	Lamps	Voltage
LP5	1	<i>Preheat</i> 06 = F6T5 (9") 120V Only 08 = F8T5 (12") 120V Only  <i>Standard</i> 14 = F14T5 (22") 21 = F21T5 (34") 28 = F28T5 (46")  <i>HO</i> 24H = F24T5HO (22") 39H = F39T5HO (34") 54H = F54T5HO (46")	U1 = 120-277V 120 = 120V
